Empowering Digital Transformation:
Custom Website Design and Development for ICCS

EMINENT
DIGITALS

ICC SCEM, an educational institution, required a comprehensive website to provide information to students, faculty, and prospective applicants.

- **Develop an informative and user-friendly website for the institution**

- **Include functionalities for course information, admissions, and contact.**

- **Ensure accessibility and ease of use.**

- **Information Richness:**

  Needed to present a large amount of information in an organized manner.

- **Functional Requirements:**

  Required features for course details, admissions, and student services.
